Iron (Fe)*0.09%

*Fe derived from micronized sulfur coating.

Equal to 4% Iron Sulfate.

Derived from Ammonium sulfate, Sulfate of Potash, Gypsum, Iron Oxide, Iron Sulfate

50 lb bag

PROBLEM

Lack of Color and Growth

Green Wolf 15-0-10 is designed for use on high quality turfgrass areas. A mini-prill formulation (SGN 90) designed for application to golf course greens, tees and surrounds. A blended fertilizer. It dissolves fast, greens up turf fast, and produces dark green color. Every pellet coated with Patented WOLFTRAX IRON!

Use Green Wolf when turfgrass is needing a kick in the pants, and needs to grow and turn green. Light frequent rates will maintain color without excess growth
