## Product Information

Tea Seed Meal is an organic, dry, non dusty, granule made from 100% Camellia spp. tea seed residue that remains after the process of pressing the tea seed for oil. It can be used as a soil amendment turfgrass, ornamental plants, gardens and landscapes. The ingredients in tea seed meal provide a source of saponin, carbon, and organic matter.

## Directions for Use

Apply to landscape areas at 6-12 lbs. of product per 1000 sq. ft. Apply enough water to dissolve the granule and wet the subsoil to a depth of 5 inches, approximately 0.2- 0.5 inches of water immediately, or within 24 hours of application. This will maximize product effectiveness and reduce pickup by mowers. Reapplication can vary, and if desired, one time per month. Heavier soils, such as clay, may require split irrigation cycles over a 48 hr. period. . Can be used on cool or warm season turfgrass or landscape plants. Apply to actively growing plants. Do not apply near water, storm drains or drainage ditches.

Do not apply if heavy rain is expected where product can be washed away from target area and into waterways.

Remove and collect product applied to hard surfaces. from hard surfaces.

**CAUTION: KEEP OUT OF REACH OF CHILDREN**
